Professional Summary

AI/ML developer with strong foundations in Data Structures & Algorithms, Object-Oriented Programming, and software engineering. Experienced in building scalable, production-ready AI systems, multi-agent workflows, NLP pipelines, and full-stack ML applications. Skilled in Python, Flask, TensorFlow, PyTorch, CrewAI, and LangChain. Passionate about developing high-performance systems using clean architecture, prompt engineering, REST APIs, cloud deployment, and modern development tools.

Technical Skills

- **Programming:** Python, Java, C++, JavaScript
- **Core CS:** Data Structures & Algorithms, OOP, OS, DBMS, Computer Networks
- **AI/ML:** TensorFlow, PyTorch, scikit-learn, NLP, LangChain, CrewAI, LLMs
- **Web/Backend:** Flask, REST APIs, Streamlit
- **Databases:** MySQL, SQLite
- **Tools:** Git, GitHub, Postman, LaTeX

Projects

Quizify AI 2025

AI-Powered Quiz Generation Web App

- Engineered an AI-based quiz generation system using LangChain and LLMs.
- Implemented PDF text extraction, context chunking, and question generation.
- Developed Flask-based backend APIs and responsive UI.

Tech Stack: Python, Flask, LangChain, pdfplumber

Customer Support Chatbot 2025

AI-Driven Multi-Agent Customer Service System

- Developed a multi-agent AI support system using CrewAI.
- Built REST APIs with Flask for real-time user interaction.

Tech Stack: Python, CrewAI, Flask, NLP, REST APIs

Spam-Ham Classification 2025

NLP-Based Email Classification

- Applied preprocessing for email text normalization.
- Trained RandomForest with Word2Vec embeddings.

Tech Stack: Python, scikit-learn, Word2Vec, NLTK

Customer Churn Prediction using ANN 2025

Deep Learning Classification Project

- Built ANN model with standardized preprocessing pipeline.
- Deployed model via Streamlit for real-time predictions.

Tech Stack: Python, TensorFlow, scikit-learn, Streamlit, Pandas

Algerian Forest Fire Prediction 2025

Web-Based Machine Learning Application

- Built Ridge and Lasso regression models after EDA.
- Created Flask web app for FWI prediction.

Tech Stack: Python, scikit-learn, Flask, HTML, CSS, Pickle

Certifications

- **Data Structures and Algorithms** — NPTEL (2022)

Education

Master of Computer Applications
Bachelor of Computer Applications

Indraprastha University — USICT (2024 – Present)
Indraprastha University — VIPS (2021 – 2024)
CGPA: 8.64/10.0
